

Sortation Associate

Amazon is hiring team members who can thrive in a fast-paced warehouse environment that involves working with and around moving machinery. Sortation Centers are where our associates bring Amazon orders to life for our customers.

Amazon remains open as an essential business to serve our communities delivering critical supplies directly to the doorsteps of people who need them

Shift Requirements:

- Amazon will provide your expected final schedule at the New Hire Event, based on the days you selected in your application. You may work 4-6 shifts and can add up to 2 additional shifts at the new hire event.
- Each shift is 4 hours. However, based on business need there may be times where you will flex up or down your shift by up to 1 hour. That means that you may work 3-5 hours per shift. Most of our associates will work 20-24 hours a week.

Working in an Amazon Warehouse

- We are committed to providing one of the safest work environments. This means you will wear a reflective vest, stretch, provide safety tips, and recognize each other for working safely.
- We are customer obsessed, and together we focus on our customers to ensure their satisfaction
- Noise levels vary. Hearing protection is available.
- A relaxed dress code gives you freedom to move around and feel comfortable and yet safe while working
- Amazon lets customers order whatever they need, whenever they need. Flexibility is key; associates should be open to working voluntary and mandatory extra hours and willing to work at a fast pace
- Even with climate controls, temperature in some parts of our Fulfillment Centers may vary between 60 and 90 degrees, and can occasionally exceed 90 degrees
- Some tasks will require standing in one place for extended periods (up to 10-12 hours a day), while others involve walking around the facility, including climbing stairs – comfortable, closed-toed shoes are required
